About This Section

This online learning system prepares you for the Excelsior College Life Span Developmental Psychology exam. The online learning system covers developmental psychology throughout the life span. It measures understanding of the concepts, covers principles and theories associated with life span development, as well as the ability to apply this understanding in specific situations. The learner will be expected to integrate content across the stages of the life span.

[Welcome to Life Span Developmental Psychology!](#) I'm so happy you are a part of this online learning system. I look forward to helping you pass your Excelsior Exam. I have posted my bio in the Learners' Lounge. Your first assignment is to post your bio in the Learners' Lounge, too.

Many online learners will enjoy "meeting" online to discuss the materials. I've set up a Live Chat room for you to "e-meet" in. You will find this link by clicking on the Communicate Tab ~ then in the Live Chat Box, click on LDP chat or by just using the Live Chat box on the homepage. You can choose to either join in the chat or simply view the chat logs. This is especially nice if you are unable to join the group, you won't have to miss the invaluable information. The best way to start a meeting is to post your availability (day/time) in the Learners' Lounge forum. You all can coordinate what works best for your schedules. This Live Chat is completely optional.

Feel free to email me or post any questions or comments you may have regarding content in the Content Questions folder. I will be happy to assist you. Best of luck with this online learning system ~ it will be a productive & enjoyable 6 weeks!!

****Please note that to see your most current grades in this online learning system, you must hit the "refresh" link in the grades box.**** Melissa K
